No. 01/July/2026 Dated. 15th July 2026

STRUCTURAL SAFETY CERTIFICATE

Structural safety certificate in respect of existing premises named as Laxmi Public School X-20 Karkardooma Institutional area, East Delhi 110092.

The existing Laxmi Public School building having ground floor, First floor, second floor and third floor, having all class rooms Conference Hall, library, toilet staff room Principal office etc. have been inspected by the undersigned as approved structural Engineer of MCD.

1- Certified that there are no deflection in beams, slabs and load bearing wall as on today at any point.

2. It is certified that there are no cracks in any walls it shows that there are no settlement in foundation hence foundation is safe.

3. It is certified that the building as on date is safe and capable of all resisting force and movements.

4. The entire structure is frame structure and tied with each other which shows that building has been built up by following the provision of latest Indian Standard and specification as stipulated by Bureau of Indian Standard.

5. The top of roof was also inspected by the undersigned there were no cracks on the parapet wall. None of the wall was found out of plumb vertically which indicate that the building is in safe condition and hence not any type of tilting/deflection in any direction which may effect the safety in any way.

Therefore it is certified that the existing building is capable of all resisting force and wave of natural hazard and structurally safe as on date.

1. Enclosed photograh of the building
